Letter of Recommendation for Fullmer Construction

To Whom It May Concern:

I have known and worked with members of Fullmer since 2009. At that time, Arch needed to finish a project on CHP property for the City of San Juan Capistrano. At the CHP's request, we hired Fullmer to complete the work and we are very pleased that we did. Fullmer completed the project in a timely and professional manner, to the great satisfaction of the CHP, the City and Arch. Since then, Arch has engaged Fullmer on numerous projects: to work on another, multi-site project in San Juan Capistrano, a street improvements project in Ontario and a \$5 million subdivision project in San Clemente.

While working with Fullmer, I found Brad Anderson and all Fullmer employees to be very dedicated, hard working and capable. The work has been performed quickly and efficiently and the quality has always been excellent. On a regular basis, Fullmer has found creative ways to resolve unexpected problems in the field and improve the end result, even saving money in the process. Their most valuable asset is the trust they have earned with me through their excellent work product and regular communications. I know my projects are in good hands with Brad Anderson, Rudy Lusic, Paul Gregovich, and all the other construction professionals at Fullmer.

I have no reservation whatsoever in giving Fullmer the highest of recommendations. Any project owner or surety would be fortunate to have them on their team.

Should you have any questions with regard to this correspondence, please feel free to contact me at your convenience.

Sincerely,

Susan D. Neff, Esq.
